GovCon365 Product and Services Overview

What is GovCon365

GovCon365 with Microsoft Dynamics 365 Business Central is a premier Microsoft DCAA-compliant ERP, financial management, and project accounting solution that helps high-growth government contractors and product resellers better manage and optimize their business ERP solutions.

Key Benefits of GovCon365

GovCon365 DCAA-compliant software is a comprehensive solution that can help government contractors of all sizes meet the rigorous requirements of the Defense Contract Audit Agency (DCAA). The software offers a wide range of benefits, including:

- **Reduced risk of audit findings:** GovCon365 software is designed to help government contractors maintain accurate and compliant financial records, which reduces the risk of audit findings and costly penalties.
- **Improved efficiency and productivity:** GovCon365 software can help government contractors automate many accounting and financial management tasks. Automation can free up staff to focus on more strategic initiatives.
- **Increased visibility and control:** GovCon365 software gives government contractors real-time visibility of their financial performance. Real-time visibility helps businesses make better decisions.
- **Enhanced security:** GovCon365 software is hosted in the Microsoft cloud or on-premises, either of which offers a high level of security and compliance. These options help government contractors to protect their sensitive data from unauthorized access.
